

Zionist False Flag Terror and Deceptions

Timeline

1946: July 22. Menachem Begin's Irgun **Jewish terrorists dress as Arabs** and bomb **the King David Hotel, killing 92 people.** The Irgun **also plot to assassinate British foreign secretary Ernest Bevin;** fortunately, this conspiracy is foiled by MI6.

1948: May 14. David Ben-Gurion **declares the independence of the new Zionist State** of Israel, born from deception and from the **blood of victims** of Jewish terrorism **hours before the British Mandate is due to expire.** It takes effect **at midnight, Tel Aviv time. May 15.** Eleven minutes after midnight, U.S. President **Harry Truman officially recognises the proclaimed Jewish state** in Palestine.

1954: July. An Israeli spy ring is arrested in Egypt. These **Israeli secret service agents have been assigned to attack U.S. and British interests** in Egypt. "**Operation Susannah**" is a typical example of **false-flag** terrorism in which the perpetrators pin the blame on another party – in this case, Egypt and "the Arabs" – for political gain. The operation is unsuccessful, the Israeli defense minister Pinhas Lavon is forced to resign as a result of the scandal, and the incident becomes known as the **Lavon Affair.**

1967: June 8. Israel carries out **a sustained air and naval attack on the USS Liberty for over an hour,** employing torpedoes, machine guns and napalm rockets, even to the extent of **machine-gunning lifeboats** launched to save the most seriously wounded. 34 men are killed and more than 170 wounded.

1987: Jonathan Pollard, a former U.S. Navy intelligence officer, is convicted of **spying for Israel**. It is **not the only case**.

1991: Israeli security officials **inspect the garage** of Zim American Israeli Shipping in the WTC, and conclude that the WTC garage is vulnerable to a car bomb.

1993: February 26. The WTC garage is **hit by a car bomb**. The FBI has been **aware of the plot via their informant Emad Salem** yet **let it go ahead**, killing six and injuring more than a thousand in the resulting fires after **a plan to substitute harmless powder** for the explosives was called off by an FBI supervisor. **According to Israeli intelligence sources**, Ahmad Ajaj, involved in the early stages of the plot, was a **Mossad** mole. There now exists a pretext for subsequent “fireproofing upgrades”.

1995: Benjamin Netanyahu, former unit team leader in the IDF’s elite special forces unit **Sayeret Matkal** and future Israeli Premier (1996-9 and 2009-), writes about **“militant Islam” bringing down the World Trade Center**. Benjamin’s father **Benzion was secretary and pallbearer to Ze’ev (Vladimir) Jabotinsky** who founded the **Revisionist Zionist Alliance**, a militant faction within Zionism. Benzion Netanyahu’s **mentor was Abba Ahimeir**, Jabotinsky’s lieutenant, who wrote a column in the Revisionist Zionist magazine *Doar Hayom*. Under the title “From the Notebook of a Fascist”, **Ahimeir would praise Mussolini and refer to Jabotinsky as “our Duce”**, and **said that Hitler is on the right track** but for his “excessive anti-Semitism”. The **Irgun Zvai Leumi** was one of several Jewish terrorist organizations inspired by Jabotinsky’s movement. Menachem Begin was, like Benzion Netanyahu, another **close disciple of Jabotinsky**. Begin was the **final**

commander of the Irgun in 1946 when its Jewish terrorists dressed as Arabs and blew up the King David Hotel.

1996: After Netanyahu is “unexpectedly” **elected Israeli Prime Minister** in the wake of **a wave of so-called “suicide bombings”**, the Institute for Advanced Strategic & Political Studies publishes a paper for him entitled ***A Clean Break: A New Strategy for Securing the Realm***.

1997: September 24/25. Members of the Mossad’s Kidon (bayonet) unit arrive in Jordan. Two of them travelling with fake Canadian passports have been assigned to execute Hamas leader Khaled Mashal. Prime Minister Benjamin Netanyahu chaired the Israeli “Committee X” **that decided on the assassination**. As in Operation Susannah, the plan goes badly wrong. The attempt to poison Mashal with nerve gas is interrupted before he is killed outright, the two Mossad assassins are arrested, and four of their teammates end up trapped in the Israeli Embassy in Amman. Israel has to bargain for their release by providing an antidote to save Mashal and by freeing another Hamas leader and other prisoners. Netanyahu only agrees to provide the antidote **after pressure from Bill Clinton**. Efraim Halevy is **sent in to defuse the situation** and get the Israelis out. For his handling of the affair, Halevy is awarded the job of Director of the Mossad.

1998: January 17. News breaks **via the Drudge Report** of a sexual relationship between President Bill Clinton and Monica Lewinsky, who is **of Russian Jewish descent**. Clinton would have been vulnerable to blackmail by, for example, **a “foreign embassy”** that was **tapping his telephones**. **January 20.** Benjamin Netanyahu, whose government is in a weak position domestically but who has **a few more aces** up his sleeve, **arrives in Washington** for talks with Bill Clinton. **November / December.** Philip Zelikow, a Jewish American **writer** and historian,

co-authors an article which describes a **"transforming event"** rather like **"Pearl Harbor"**, which would "divide our past and future into a before and after". In another few years, Zelikow will be the **executive director** of the "9/11 Commission".

1999: May 28. The **website domain** emperors-clothes.com **is created** by Jared Israel. **September 16.** Jared Israel posts a fairly lengthy **article** at the Emperor's Clothes website, taking a position that is critical of the U.S. government and of the *New York Times'* bias towards U.S. government policy. The article *Credible Deceptions* has no less than 35 references to "bin Laden", and is rightly skeptical of the notion that "CIA employees" Osama bin Laden *et al* would have suddenly transformed from employee to enemy. Israel suggests that bin Laden is "an enemy in fiction". *Credible Deceptions* is **said to have been** written as early as August 28, 1998, revised September 16, 1999, and reposted February 18, 2001. **October 31.** Rabbi Dov Zakheim is **CEO of SPC International** – a world leader in aircraft remote control technology incorporating a **"Flight Termination System"** capable of simultaneously taking over a number of in-flight aircraft and issuing commands via a **"Command Transmitter System"**. EgyptAir Flight 990 (a Boeing 767) plunges into the Atlantic, killing all 217 on board including **33 Egyptian army officers**. No mechanical cause for the crash is ever found, and it is blamed on a **"suicidal Muslim" co-pilot**, a claim that is **publicised by the New York Times**, which has been **under Jewish ownership since 1896**. **A few weeks later**, bioterrorism "expert" **Jerome Hauer** announces he will step down from his position as Director of the Mayor's Office of Emergency Management early in 2000, having successfully conducted an emergency operation from the OEM, based on the 23rd floor of World Trade Center Building Seven (WTC7), **in response to the outbreak of West Nile Fever** in the city which occurred the year after

he persuaded Mayor Giuliani to develop a vaccine against it. **As of 1999 – 2000**, the Naval Surface Warfare Center at Indian Head, MD (NSWC-IH), is the “**only reliable source of aluminum nanopowders in the United States**”.

2000: January. More than a hundred **Israelis** pose as “**art students**” (**January 2000 – September 2001**) and **attempt to penetrate U.S. Drug Enforcement Agency (DEA) offices** and other federal buildings including **36 sensitive Department of Defense (DoD) sites**.

September. Rabbi Zakheim of SPC is amongst the signatories to ***Rebuilding America’s Defenses***, a report published by The Project for the New American Century (**PNAC**), which wrote of the advantages of a “**new Pearl Harbor**”.

2001: Fireproofing “upgrades” are being carried out at the World Trade Center’s Twin Towers, as **also occurred** over several years **pre-2001**. The contract holder is **Turner Construction**, whose CEO is **Tom Leppert**. WTC tenants have been **completing various modifications** throughout the leased spaces. **January 20.** George W. Bush is **sworn in as president**, and says, “We will confront weapons of mass destruction...”. A **clique of warmongers** with **strong attachments** to **Israel** and **PNAC** are to achieve power in the Bush administration.

February 15. Rupert Murdoch’s Fox TV network broadcasts a documentary entitled “**Conspiracy Theory: Did We Land on the Moon?**” This **weak** conspiracy theory has **plenty of evidence against it**, and very little to support it. The broadcast would help to deflect attention from any actual major criminal conspiracy that might be imminent, by branding those who exposed the crime as “**conspiracy theorists**” – particularly if someone were to **conflate the “Apollo hoax” theory with the real conspiracy**. **March 4.** Fox TV, owned by

Rupert Murdoch, a long-time friend of Benjamin Netanyahu, broadcasts the pilot episode of **The Lone Gunmen** TV series, an episode about **a plot by a secret cabal within the U.S. government to electronically hijack by remote control a Boeing** heading for Boston and **divert it to crash into the World Trade Center.** The broadcast would help to deflect attention from any imminent **false-flag attack** by Israel by: (i) **Diverting suspicion to the Bush administration.** (ii) Reinforcing the concept of an attack based on **remote-controlled planes** as "fiction" or "conspiracy theory". **March 19.** Fox TV rebroadcasts its "Moon hoax" **conspiracy theory.** **April.** Real estate developer **Larry A. Silverstein** is still in the running as one of three bidders for the 99-year lease on the World Trade Center, after having been **viewed as a "dark horse"** who was unlikely to win the deal. However, **Port Authority chairman** Lewis M. **Eisenberg** is in charge of negotiations. **Eisenberg** was a partner of Goldman Sachs for many years, and is on the planning Board of the UJA / United Jewish Federation "charity". **Silverstein** served as **Chairman of the Board** of the **United Jewish Appeal.** **July. Six weeks before** the WTC is destroyed in terror attacks involving Boeings that, **evidence suggests,** are **electronically hijacked by remote control,** Benjamin **Netanyahu's friend Larry Silverstein,** in partnership with **billionaire** Australian **Frank Lowy** who **fought "in the Jewish underground",** takes control of the WTC lease, and **insures** the buildings **against terror attacks for billions of dollars,** with a clause stating that in the event of a terrorist attack, the partners could **not only collect the insured value of the property, but would also be released from all of their obligations under the 99-year lease.** **August 26.** New York Police Commissioner Bernard Kerik **leaves for a four-day trip to Israel,** where he is to meet government officials to discuss terrorism.

The trip has been approved by Mayor Giuliani, with New York taxpayers picking up the tab. **August 29.** In Jerusalem, **Bernard Kerik assures Israeli leaders** that the NYPD is "on top of" all potential terrorist threats. See **September 16, 2001** and **November 8, 2007** for more on Kerik. **September 4.** The Zim-American Israeli Shipping Co. **moves out of the WTC**, transferring their HQ to Norfolk, Virginia. **September 6.** In the U.S. stock options market, an **extraordinary proportion of trades** are betting that the United Airlines price will fall. The put / call ratio is 25, i.e., "**puts**" are about 96.154 percent of the volume, and "calls" only 3.846 percent, as opposed to a typical 50:50 ratio. **September 10.** The *Washington Times* publishes details of a study by the Army School of Advanced Military Studies (SAMS), which has **this to say of Israel's Mossad**: "Wildcard. Ruthless and cunning. Has capability to target U.S. forces and make it look like a Palestinian/Arab act." San Francisco Mayor **Willie Brown** is warned not to fly the next day. An **internal memo is sent around Goldman Sachs** in Tokyo, advising all employees of a possible terrorist attack against American buildings. Goldman Sachs is a **Jewish investment banking firm**, with **headquarters in Lower Manhattan** close to the World Trade Center. In the U.S. stock options market, an **extraordinary proportion of trades** are betting that the American Airlines stock price will fall. The proportion of "put" options, at more than 80 percent, (85.79 percent at the Chicago Board Options Exchange, according to **this source**) far exceeds the proportion of "call" options. **September 11. Benjamin Netanyahu** and **Rudy Giuliani** are in New York. Odigo, an Israeli instant messaging company with **offices in Herzliya, Israel**, provides **two hours' advance warning of an attack on the World Trade Center**. At **9:00 a.m.**, **officials at the National Reconnaissance Office, Chantilly, VA**, start to run an exercise involving a plane crashing into a tower.

Another drill is scheduled **at the 97th floor of the WTC South Tower** where Fiduciary Trust has offices, and **numerous other war games and exercises distract NORAD** so that any truly hijacked (electronically or otherwise) planes cannot be intercepted in time. A group of Israelis, **some of whom are Mossad agents**, park their van and **set up video cameras aimed at the Twin Towers**.

Uncharacteristically, Larry Silverstein does not breakfast at **the Windows on the World restaurant** on the 106th and 107th floors of the North Tower that day since he has **a “dermatologist’s appointment”**, and another consequence is that his two children, who work at Silverstein Properties, are running late. Silverstein’s lucky streak is compounded when each Tower of the WTC complex – which he insured for \$billions against terror attacks a mere six weeks ago – is struck by an aircraft in synchronized terror attacks. A group of Israelis dance and celebrate with **high fives** and **cries of joy and mockery**, even **prior to the second impact as most onlookers still believe it has been a terrible accident** rather than terrorism. **George W. Bush** is informed by Andrew Card that a second plane has hit the WTC, and **continues to read a story about a pet goat** to schoolchildren as if nothing has happened. Each Tower completely collapses, mostly into its footprint. There is a **remarkable correlation** between the impact floors of each Tower that supposedly failed due to “fires”, and those floors that had received fireproofing “upgrades”, particularly in the case of the North Tower (WTC1). **The steel was certified to ASTM E119 by Universal Laboratories**. In subsequent **tests to be sponsored by NIST on corresponding floor assemblies** subjected to **greater heat exposure** and protected with less fireproofing than **at the WTC** on 9/11, it will be found that the test specimens **“were able to sustain the maximum design load”** without collapsing for as long as the tests were run: 2 to 3

1/2 hours). Within hours, **Jerome Hauer** goes **on TV to tell everyone that** "It... certainly has the fingerprints of somebody like bin Laden", and that the World Trade Center **collapsed because of** "the velocity of the plane" and "intense heat probably weakened the structure as well". Hauer **reportedly advises the White House to start taking Cipro**, an effective antibiotic against **anthrax**. Five Israelis **are arrested that afternoon** after **tie-ins** to the 9/11 attacks are found in their van, such as maps of the city with certain places highlighted. **Bomb-sniffing dogs react** as if the van has traces of explosives. Another team is caught **attempting to blow up the George Washington Bridge** with a **truck packed with tons of explosives**. A "panel truck with a painting of a plane flying into the World Trade Center" is stopped, and found to contain **yet another team** of "ethnic Middle Eastern people" – i.e., **Israelis**. There is evidence to suggest that this van **exploded**. Bush is **whisked away to the United States Strategic Command headquarters** at Offutt Air Force Base in Omaha, Nebraska, where Warren Buffett is **hosting his annual golf charity event**. Ann Tatlock, the CEO of Fiduciary Trust Co. International, having been invited to this charity event, is, like the Silversteins, spared a fiery fate as a plane smashes into her company's offices **right where 650 of her employees work**, killing **87 of them**. Building 7, which was never struck by a plane, **completely collapses** into its **footprint** despite the fact that **any structural damage or weakening from fires would have been asymmetric**. The initial WTC7 collapse is **very close to free-fall** speed. There are many, many more "**coincidences and oddities**".

Running in parallel with the above timeline going up to the WTC demolitions is another, shorter timeline relating to the Pentagon attack:

2000: March 3. It is reported that **the Pentagon's finances are "in disarray"**, and that in 1999 the Defense Department's accountants had to make almost \$7 trillion in "adjustments" to try to reconcile bookkeeping discrepancies. They cannot show receipts for \$2.3 trillion of those corrections. There are hundreds of computer systems running various military accounts, but these are not integrated, and the financial records are not up to accounting standards or capable of even facing an audit. It follows that the Pentagon would be vulnerable to a "terror attack" that destroyed the relevant computers and documents, also **killing dozens of accountants, bookkeepers and budget analysts.** A percentage of \$2.3 trillion is still an inordinate amount of cash, and if a proportion went missing, the Pentagon Comptroller would be able to say, "We tried our best, but sadly, due to the terror attacks, we will never know exactly how much money is missing – or where it went".

2001: February. George W. Bush nominates Rabbi Zakheim to serve as Comptroller at the Pentagon and Under Secretary of Defense. **May 4. Dov Zakheim is sworn in** as Pentagon **Comptroller and Chief Financial Officer** for the Department of Defense. **May 31. Thomas E. White** – who **went on JINSA trips** to Israel and who as former CEO at Enron is linked to the **massive fraud** there – is **sworn in** as Secretary of the Army, thirty days after being nominated by George W. Bush. **September 10.** A group of **top Pentagon officials** are warned not to fly the next day. Donald Rumsfeld confirms that **\$2.3 trillion of transactions** cannot be accounted for. **September 11. Thomas White, Paul Wolfowitz, Randy "Duke" Cunningham** and others are **at a breakfast meeting with Donald Rumsfeld**, in which the latter predicts that some kind of "shocking" world event will occur in the near future. The meeting is about to break up as the first plane slams into the North Tower. As the alleged Flight 77 is ten miles out from the Pentagon,

a young man asks Vice President Cheney, "**Do the orders still stand?**" Cheney turns and whips his neck around and replies, "Of course the orders still stand. Have you heard anything to the contrary?" Since there are no shoot down orders in effect at **9:37:45** – the time of the Pentagon strike – or earlier, "the orders" seem to be **stand down** rather than shoot down. Thomas White is at the Army Navy Country Club when, as he says, "**the plane that hit the Pentagon came right over the top of the Army Navy Club and bounced down the hill and hit the side of the Pentagon**". Steve Riskus allegedly sees a Boeing 757 featuring an "**AA**" logo with the eagle in the middle on the tail crash into the Pentagon after screaming overhead at **530 mph** and knocking over a few light poles on the way. The domain criticalthrash.com subsequently carries Riskus' photos and **other reports consistent with an AA jetliner**, although most of these witnesses are employed in defense or in the media. In the **afternoon**, Donald Rumsfeld says, "**My interest is to hit Saddam Hussein**", and orders his aides to **plan for striking Iraq**.

Looking beyond 9/11/2001, events unfolded like this:

2001: September 12. U.S. officials say they have identified "**all of the hijackers**", who very obligingly are found to have left numerous clues such as a copy of the Koran, a flight training video and a fuel consumption calculator **in luggage** that supposedly failed to make the connection to the alleged Flight AA11, and Arabic language **flight training manuals** in a rented white Mitsubishi Mirage found at Boston's Logan airport late Tuesday the 11th. It is estimated that the conspiracy must have **involved hundreds if not thousands**, and, in an attempt to explain why Western intelligence was "oblivious" to the plot, it is suggested that Osama bin Laden planted agents inside the U.S. military

and intelligence services. **September 13.** U.S. officials say they have identified "**most of the hijackers**", believed to number eighteen. Adnan Bukhari and Ameer Bukhari, originally thought to be brothers, were suspected, but Adnan was found to be alive and living in Florida, and Ameer **died in a small plane crash** on September 11, 2000. Yet if those identities were stolen and were on the flight manifests, it would be remarkable if the authorities were able to trace the real identities of the individuals involved within, say, three days. For anyone in need of "Saudi suicide pilots" to frame as patsies, the deceased pilot Ameer Bukhari, a Saudi Arabian national of Vero Beach, Florida, would be an ideal choice provided they could keep the lid on the fact that he had died in the "wrong" year. It is **reported** that the Bukhari "brothers" rented a silver-blue **Nissan Altima** and drove from Boston to Portland, bizarrely only to fly back to Boston. Atta rented the Mitsubishi sedan found at Logan airport, and also had a red Pontiac registered in his name. There is a general **ban on flights**, which must be approved on a case-by-case basis. Prince Bandar bin Sultan, Saudi ambassador to the U.S., **meets George W. Bush**. The authorities give permission for a private jet to fly around the U.S. picking up **members of the bin Laden family**, which has business ties **with the Bush family** through **the Carlyle Group**. About **140 top Saudi officials** are on the plane. The Emperor's Clothes website runs a **couple** of articles skeptical of the official 9/11 story, **including an interview** between editor Jared Israel and Rudi Dekkers of Huffman Aviation. Don Radlauer, of the **Interdisciplinary Center** at Herzliya, Israel (and **formerly** – until **1997** – of **Weybridge**, Surrey, UK and of **New York**), publishes **a report** detailing the flight paths of the alleged four hijacked planes. The report attempts to lend credibility to the official story with suggestions that hijacking and steering the planes would be an easy task – even though a rather diminutive **non-pilot** was

said to have **wrestled control** of Flight 77 from the **tough**, highly trained, **weightlifting** former Navy fighter pilot Charles Burlingame and steered a Boeing 757 to hit the Pentagon at 530 mph as its engines cleared the lawn by a couple of feet. Radlauer's "take off" times correspond to the "pushed back from the gate" times, with Flight 93 for example being delayed for 41 minutes due to congestion. The 41-minute delay could explain why Flight 93 failed to hit its intended target, as the Air Force stand down could not be maintained indefinitely. **September 14.** U.S. officials say they have identified nineteen "**hijackers**", with **Hani Hanjour** now included. Evidently the scriptwriters had pilots and Saudis available for the frame-up, but were short of credible "Saudi pilots". **Dominick Suter** of "**Urban Moving Systems Incorporated**" or urban MOving SyStems incorporAted, the Mossad front that the joking, celebrating, dancing **Israelis** ostensibly **worked for**, flees the U.S. **for Israel. September 16. Osama** bin Laden **denies responsibility** for the attacks, but **according to Police Commissioner Bernard Kerik**, the **passport of "hijacker" Satam al Suqami** has been discovered several blocks from the WTC crash site. Kerik's claim is not credible since, given the physical characteristics such as mass, cross-section and drag coefficient of a passport, even if it had survived the fireball, flying over rooftops for several blocks would be **in contravention of the laws of aerodynamics**. In another attempt, the passport is said to have been found "in the vicinity of Vesey Street", to the north of the Twin Towers. Unfortunately, the scriptwriter forgot that Suqami was supposed to be on Flight 11, said to have approached from the north. The "Bukharis drove the rented Nissan Altima to Portland" story has **evolved** into "**Mohamed Atta and Abdul Alomari** drove the **rented Nissan Altima** to Portland", which necessitated abandoning the previous claim of "Atta rented the Mitsubishi found at Logan" since **that would make even less sense**.

However, the “Abdul Alomari hijacker” was **originally** Abdul Rahman Alomari, a pilot, friend and neighbor of Adnan Bukhari. When Alomari was found to be alive, as was Adnan Bukhari, the hijacker was said to be Abdulaziz Alomari. Problem is, he is alive too. And he’s a non-pilot.

September 18. Terrorists launch an anthrax letters

campaign targeting **Democratic U.S. Senators** and **news media offices**, seven days after the 9/11 attacks, and seven days after Jerome Hauer had advised the White House to begin taking **Cipro**. For an excellent timeline of the anthrax attacks and a subsequent spate of deaths amongst microbiologists, see **here**. **September 19. Don Radlauer**, of the Interdisciplinary Center at Herzliya, Israel, publishes a **report** on pre-9/11 insider trading involving surges in volume of put options for American Airlines, United Airlines, Morgan Stanley Dean Witter and Merrill Lynch over the trading days before the attacks. He confirms that there was no news at that time to justify such an imbalance of trades, calculates the potential profit for the insiders at over \$15 million, suggests that “Osama bin Laden” was behind it, and says, “we are dealing with an expert in masking ownership of corporations and making covert deals”. See **here** for some more clues as to the identity of those skilled in masking ownership of corporations.

September 25. Rudy Giuliani **bans photography** at the World Trade Center ruins. **September 28.** Osama bin Laden again denies having

anything to do with the 9/11 attacks, but **suggests some possible suspects**: Those within the American system who rebel against it and work for some other system, those who want to stir up conflict between Islam and Christianity, American Jews, or U.S. intelligence agencies.

Before the month is up, nearly half of the **alleged “suicide hijackers”** have **turned up alive and well**. And that’s from the new, **improved** list, excluding Abdul Rahman Alomari and the Bukharis. No

less than three of the alleged "suicide pilots" – **Mohamed Atta**, Marwan **al-Shehhi** and **Ziad al-Jarrah** – had reported their passports **stolen in late 1999**. Jarrah's uncle Jama**explains in a five-minute interview** that his nephew was not a radical, had no interest in politics, and did not change his appearance or behavior. **Within a month of 9/11** it is quite evident that the alleged hijackers' **drinking**, cocaine**snorting**, **gambling**, trysts **with hookers** and **frequenting of strip joints** does not square with religious extremists with such hatred of **Western culture** that they are prepared to kill themselves and thousands of others. **October 8.** Edward A. Coburn, 31, of Fresno, California, is arrested after bursting into the cockpit of an American Airlines jetliner bound for O'Hare airport, screaming, "**We're going to crash into the Sears Tower**" and that terrorists are "steering" the plane towards the Sears Tower. Coburn, who works for a Silicon Valley company, is described as "intelligent, decent and immaculate", "polite", a "mellow type" who was "very kind and very nice", a "real good guy", etc. **October 10. Three days after the launch of the war** in Afghanistan, **Mossad agent Salvador Guersson Smecke and Israeli illegal immigrant Saur Ben Zvi** are **caught and arrested inside the Mexican Congress chamber** in possession of guns, grenades, dynamite, detonators and wiring while posing as "press photographers". **October 11** (assuming the Thursday prior to October 17). Moshe Elmakias, 30 and Ron Katar, 23, described as "Middle Eastern", are arrested by Plymouth Police in Pennsylvania after being found with a Sony video camera and tape with **detailed video footage of Chicago's Sears Tower**, days after a bizarre incident in the cockpit of a jetliner bound for **Chicago's O'Hare** airport. Elmakias' tractor-trailer, which has a Florida registration and a sign posted on the side reading "Moving Systems Incorporated", was seen by a Pizzeria Uno manager backed up

to the Dumpster at the rear of the restaurant with a freshly dumped pile of furniture adjacent to the Dumpster. Also observed with Elmakias is a female, Ayelet Reisler, 23. **Elmakias** is a **Jewish** name, as is **Katar, Reisler** and the forenames **Moshe, Ron** and **Ayelet**. Although Elmakias claims to be in Plymouth to make a pick up, he cannot provide a name or telephone number of the customer. The President of Moving Systems Inc. is **Simo Elbaz of Florida**, aka Simon Elbaz aka Simon Miller aka Jonathan Miller, as subsequently shown in a **February 2003 indictment** naming Elbaz, Elmakias and several others on charges of wire fraud, extortion, and making a false bill of lading. **October 26**. A mere 45 days after the 9/11 terror attacks, George W. Bush signs the "**Patriot Act**" into law. The US government has awarded itself **additional powers**, e.g. the power to break into its citizens' homes and conduct secret searches without telling them for months or indefinitely, and to spy on people's choice of books. These powers are subsequently exploited so that the government can **eavesdrop on private communications** even when there is no evidence of involvement with a foreign country or a terror group. **October 27/28** (last weekend in October). **Six men with Israeli passports** are stopped by police in the Midwest and found to have photos and descriptions of a nuclear power plant in Florida and the Trans-Alaska pipeline. They also have "box cutters and other equipment". Attorney General John Ashcroft and FBI Director Robert Mueller are said to be "furious" that the Immigration and Naturalization Service let them go without consulting the FBI. The incident is later **reported** in the Israeli press, although **Ashcroft denies** that he and Mueller were "furious". **November 14**. The Emperor's Clothes website, which was so quick to recognize that the "bin Laden turned from employee to archenemy" story was bogus, **posts** an article **Guilty For 9-11: Bush, Rumsfeld, Myers**. Unfortunately, it studiously

ignores all the evidence of Israeli involvement. **November 23.** The *Washington Post* runs an article entitled "**60 Israelis on Tourist Visas Detained Since Sept. 11**", saying that **employees of Quality Sales, Inc. in Toledo, Ohio and other Israelis** in the U.S. have been detained. The Israelis worked at malls selling trinkets and toys such as rubber band-propelled helicopters. Israeli mall kiosks are **suspected** Israeli **intelligence fronts**. The *Post* reports that this week, the authorities began to release the five detained "moving company" Israelis, young Israeli army veterans, who were observed celebrating with cries of joy and mockery as they trained their cameras on the burning WTC. They are being returned to their homes in Israel.

December 13. An "**Osama confession video**" is conveniently "found", out of all the buildings in Jalalabad (population estimated at **roughly 250,000** as of 1999) in occupied Afghanistan within 5 weeks of it allegedly having been made, in which the only similarities between the "confessor" and OBL are that both of them wear a turban and have a beard. **Before the year is out**, it is evident that the weapons-grade Ames strain of anthrax found in letters sent to media outlets and senators in September and October **originated at a U.S. government lab**, despite a feeble attempt to **frame Arab Muslims** for the crime. Structural engineers say that the decision to rapidly recycle the WTC steel was a "**serious mistake**" that is handicapping the investigation. Dr. Frederick W. Mowrer, an associate professor in the fire protection engineering department at the University of Maryland, says, "I find the speed with which potentially important evidence has been removed and recycled to be appalling." Mayor Rudy Giuliani is suspected of being behind the decision, but officials in the mayor's office do not reply to written and oral questions about who decided to recycle the steel.

2002: January 11. The first prisoners arrive at "**Camp X-Ray**", Guantanamo Bay, Cuba. Detainees arrive **shackled in orange jumpsuits** with blacked-out goggles and earplugs, and are made to kneel in a "holding area". They are housed in 8 feet square wire cages and have a mattress, a sheet, a blanket, two towels, soap, shampoo, a copy of the Koran and two buckets. **Jamal al Harith** is just one example of an unfortunate who happened to be in the wrong place at the wrong time: a country that was invaded and occupied under a **false prospectus**, a person who was seized and transported thousands of miles to be imprisoned and abused without trial simply to maintain the **fiction** that the invasion of Afghanistan was to save the world from "**terrorists**". **March 11.** Rabbi Dov Zakheim **delivers a commemorative sermon on the Pentagon lawn to hundreds of co-religionists from 40 countries.** Chabad **Lubavitch** rabbis have gathered ostensibly to launch the centenary commemoration of their spiritual leader, Rabbi Menachem Mendel Schneerson, yet **the rabbis sing "Oseh Shalom" at 9:38 a.m. at the crash site**, exactly six months after the extremely lucrative Pentagon attack. **March 25. Sixteen microbiologists** have died, in a mysterious spate of deaths that started less than five months ago. Back in the 1980s, a **series of "suicides"** amongst scientists working in the defense industry had prompted **Doug Hoyle** to raise the issue in Britain's Parliament with a **question** to the Under-Secretary of State for Defence. **April 28-29.** Guantanamo Bay prisoners are transferred from the temporary Camp X-Ray to the larger **Camp Delta**, construction of which officially began on February 27. **May 7.** A group of Israelis are caught **with a rental truck that tested positive for TNT and RDX plastic explosives** shortly after midnight, very close to the **Whidbey Island Naval Air Station**, Oak Harbor, Wash., where the Navy conducts **explosive**

ordnance training for bomb disposal mobile units. September 10.

Philip Zelikow admits that Iraq poses a threat to Israel, but not to the

USA. **October 12.** In the deadliest terrorist atrocity to hit Indonesia,

bombs are detonated on the island of Bali. **202 are killed**, none of whom are Israelis. Australia suffers the highest number of casualties at 88, consistent with a goal of inducing Australia to increase its

contribution to the “war on terror” and bring in **“anti-terror”**

legislation. The second bomb, in a Mitsubishi van, causes much more damage than the bombers expect. The official story is initially that the

Mitsubishi bomb **consisted of** the **high explosive** C-4, and this is

subsequently revised to a **low explosive** improvised **potassium**

chlorate, aluminum powder and sulfur composition which is

inconsistent with the damage. The ringleader of the bombers suggests

that an intelligence agency – **“the CIA or KGB or Mossad”** – had

tampered with the bomb. In the February 1993 WTC bombing, the FBI’s

plan to substitute a harmless powder for the real explosives was called

off by an FBI supervisor; in the Bali 2002 bombing, intelligence

operatives could have substituted a more powerful explosive.

2003: February. Sixteen moving companies and 74 operators, owners

and employees are indicted on charges of fraud and extortion. Many of

the names involved are Jewish names. Included is Moshe Elmakias aka

Moses Makias of **Moving Systems Incorporated**, who was caught in

October 2001 with detailed video footage of the Sears Tower. **March**

16. Three heads of state – George W. Bush, Tony Blair and Spanish

Premier Jose Maria Aznar – travel to an American airbase **in the Azores**

for a “summit”, i.e., an hour-long meeting where deals can be done

behind closed doors without the risk of hacked phones, days in advance

of the impending **“shock and awe”** campaign to bring **“democracy”** to

Iraq and **rid it of its** “WMDs”. **March 27.** The **Camp Delta Standard**

Operating Procedures is approved for immediate implementation. For example, if a prisoner is escaping beyond the perimeter fence and there is no other means to prevent escape, then the guard should "fire to make the person(s) unable to continue..." without warning shots. In a list of "offenses", tampering with restraints is listed as "category III". **June.** Biological weapons experts working for the British government prove the Iraqis are right and the British government is wrong, in that the trailers that **Tony Blair**, George **Bush**, Dick **Cheney**, Donald **Rumsfeld**, Condoleezza **Rice** and **Colin Powell** claim are "mobile biological weapons labs" **are in fact hydrogen generators** for inflating artillery balloons. **July 18. Dr David Kelly**, a biological weapons specialist and expert on Iraq's weapons who knew that **the claims** about "WMDs" are **a pack of lies**, is found dead after failing to return from one of his **regular walks in the woods** yesterday. Officially, the death is ruled to be a "suicide". However, **no fingerprints have been found** on the knife he allegedly used to kill himself, he was not wearing gloves and none were found at the scene, **a full transection of a single ulnar artery** – which will **quickly retract** and close down thereby promoting clotting – is **highly unlikely to kill**, as is ingestion of one-third of a lethal dose of the painkiller co-proxamol, **very little blood was found** at the scene, and it would have been very difficult for Kelly to cut through the tendons of his left wrist since **his right hand was very weak** due to an elbow injury and he favored his left hand for any task requiring strength. All the **evidence** points to murder. Other **scientists have died** in various circumstances, some **suspicious** and others **not suspicious**. **October.** In a speech before retiring as Malaysia's prime minister, Mahathir Mohamad shrewdly observes that **Jews rule the world by proxy, and get others to fight and die** for them.

2004: April 9. Eddie Guigui Shalev, an Israeli national who served in the Israeli Defense Forces in the paratroops regiment, **says that** based on his observations, Hani Hanjour was a “good” pilot, contrary to all available evidence. **May 8.** Shmuel Dahan, 22 and Almaliach Naor, 19, both Israelis, are **arrested in Tennessee following a three-mile high-speed chase** after their rental truck is seen speeding and they refuse to stop. Dahan, an Israeli military veteran, is **found to have** a “Learn to Fly in Florida” business card in his wallet. Florida flight instructor Nissan Giat says that **he met Naor at a moving company** where the Israeli man works and gave him one of his cards. The Israelis’ ID is fake, and a brown bottle which they threw from the truck whilst being pursued is found to contain a thick liquid like drain cleaner. **Tests indicate** the liquid is a mixture of Astromid 18 – a latex stripper/cleaner, **gluconic acid** and water. No explanation is provided as to why these were mixed. The nearby Nuclear Fuel Services plant in Erwin is “**the nation’s sole provider of fuel for the Navy’s nuclear subs**”. Although the Israelis claim to be moving furniture, the Sheriff is skeptical, saying that the furniture is so old that it’s hard to see why anyone would want to move it. **May 19.** Rudy Giuliani says that **officials never imagined** that planes would be used as missiles, although they prepared for anthrax, smallpox and “dirty bombs”. **May 21.** Tamir D. Sason, 24 and Daniel Levy, 23, both of Metar, Israel, are caught attempting to get into the Kings Bay Naval Submarine Base, Georgia, without proper identification, **prompting a nearly 3-hour lockdown**. They have supposedly been contracted by a moving company. Bomb-sniffing search dogs **react positively** to a briefcase in the cab of the truck, although no explosives are found. Submarines at **Kings Bay** are armed with nuclear ballistic missiles. **July 15. Mossad agents Uriel Kelman, 30, and Eli Cara, 50,** are convicted and jailed for six months

for **fraudulently attempting to obtain a New Zealand passport in the name of a tetraplegic man** in order to create a false identity for Zev Barkan.**July 22.** The 9/11 Commission publishes its final report, the *9/11 Commission Report*, which would more accurately be called the “9/11 **Omission Report**”. **September 2.** The FBI has **a file of documents** compiled in July and August showing that the Bureau is aware of various torture tactics at Guantanamo Bay that go back to 2002. Prisoners are shackled to the floor in the fetal position for 18 hours or more so that they urinate and defecate on themselves, subjected to extremes of temperature, threatened with dogs made to bark and growl, have their hair and beard wrapped in duct tape, deprived of sleep by the use of strobe lights and loud music, made to stand in stress positions, etc. One FBI agent heard banging sounds like thunder, but was perplexed by the fact that the weather was fine. On going to investigate, a prisoner was seen in an interview room kneeling on the floor with his forehead on the ground, holding his nose which appeared to be bleeding. The interviewers claimed that he “**threw himself to the floor**”. Another agent traveled to interview a prisoner, and **found he had** “a black eye, facial cuts around the nose, and his fingers on both hands were taped up”.**October.** A “**close friend**” of George W. Bush – **identified as** Tom Bernstein who, along with Bush and other businessmen, was a former owner of the Texas Rangers baseball club, a deal which **netted Bush millions of dollars** – sends him a copy of Natan Sharansky’s new book ***The Case for Democracy*** with a note urging him to read it. Bush does so – and so does Condoleezza Rice. **Tom Bernstein** is a member of the Council on Foreign Relations, was appointed by Bush in 2002 to serve as a Council Member of the U.S. Holocaust Memorial Museum in Washington, D.C., and from 2002 to 2005 has been Co-Founder and Chairman of the International Freedom Center, a cultural institution

developed for the World Trade Center Site. He is **connected to** Natan Sharansky through the International Freedom Center, to **Arthur Ochs Sulzberger** through the Fresh Air Fund, and **Elie Wiesel** through the U.S. Holocaust Memorial Council. **November 2.** President Bush 'wins' a second term with the **aid** of **Diebold** electronic voting machines. Where a paper trail exists, the divergence between exit polls and results is within the expected statistical margin of error. In contrast, results from the voting machines have almost consistently swung towards Bush. The National Election Data Archive demonstrates that, for Ohio, the probability of these discrepancies occurring due to chance ranged from **1 in 17,800 down to 1 in 867,205,500**. Dr Stephen Freeman of the University of Pennsylvania **calculates the odds at 250 million to one against** for just three of the major swing states – Florida, Ohio and Pennsylvania – to swing as far as they did from their exit polls.

November 11. Bush **meets with Natan Sharansky** for more than an hour. He **invites him into the Oval Office** for a discussion of Sharansky's *The Case for Democracy* and how it applies to the "war on terror".

2005: January. One possible motive for the Iraq war becomes apparent when it is reported that **\$8.8 billion of Iraqi money has gone "missing"** between October 2003 and June 2004 from the former UN Oil-for-Food fund, oil sales and seized assets. In a lengthy interview with the *Washington Times*, George W. Bush **says**, "If you want a glimpse of how I think about foreign policy read Natan Sharansky's book *The Case for Democracy*." **July 7. Benjamin Netanyahu** and **Rudy Giuliani** – who were in New York on 9/11 – are located in London on the morning of the 7/7 bombings. **Netanyahu** and **the Mossad** receive advance warning and, ironically, in a futile attempt to deflect from Israeli foreknowledge, former Mossad head **Efraim Halevy** demonstrates inside

knowledge **by revealing that he already knows** the bombings were simultaneous when the authorities spend the next two days claiming that the three Tube explosions were **spread over a period of 26 minutes** from 08:51 to 09:17. The Israeli company **Verint Systems**, a subsidiary of Israel's **Comverse Technology**, handles video security **at the London Underground**. In a **CCTV-rich environment** such as London, there ought to be numerous time-stamped images to prove that the alleged bombers were in London on 7/7, yet the authorities **never release any such images**. Jacob "Kobi" Alexander, a **former Israeli intelligence officer**, is listed on **Verint documents** as **Chairman of the Board of Directors**, e.g. as of April 2003. Dan Bodner, current CEO of Verint, **was an Israeli Army officer**. The official tale of "Muslim suicide bombers" is **physically impossible**, given the actual train times of the day, and the official scenario of exploding backpacks is contradicted by eyewitnesses and photos indicating the explosions **originated underneath the carriages**. Rudy Giuliani, friend of Bernard Kerik who announced the "discovery" of an alleged 9/11 suicide hijacker's passport claimed to have survived the jet fuel fireball, was **in Yorkshire the previous day**. Miraculously, a till receipt obtained from a garden center at Tulip Retail Park in Leeds, Yorkshire is **"found" to have survived** one of the deadly Tube train blasts, and cited as 'evidence' for the official version of events. **November 9** (9/11 by Israeli or European calendars). **Israeli Jews** staying at the Radisson hotel, Amman, Jordan, are **evacuated** in advance of terror attacks. According to the official story, "suicide bombers" are responsible, and even though the blast at the Radisson was caused by a **bomb hidden in a false ceiling**, it is still claimed to be the work of "**suicide bombers**". There were **no Jewish casualties, most of the dead were Jordanian Sunni Muslims, two Israeli casualties were both Arabs, and five**

Palestinians died including **Major-General Bashir Nafeh, the head of military intelligence in the West Bank.**

2006: July 31. Jacob "Kobi" Alexander, the Israeli-born founder and former CEO of Comverse Technology, is charged by U.S. authorities with multiple counts of fraud and related offenses. He was on vacation in Israel, but instead of returning to the U.S. to face indictment, travels to Germany and subsequently flees to Namibia. **August 15. September 18. Benjamin Netanyahu, Warren Buffett, and Stef and Eitan Wertheimer** attend a party at the King David Hotel, Jerusalem, to celebrate Buffett's **\$5 billion acquisition** of an 80% stake in the Wertheimer family's Iscar Metalworking Company. The Israeli government also receives \$1 billion in taxes from the deal. **Stef Wertheimer**, founder of Iscar, is considered the wealthiest Israeli living in Israel. **Eitan Wertheimer and Netanyahu** are residents of **Caesarea**, the **only town in Israel that is managed by a business**, the Edmond Benjamin de Rothschild Caesarea Development Corporation that has donated **over 100 million shekels in recent years** to organizations such as the **Interdisciplinary Center in Herzliya.** **September 27.** Jacob "Kobi" Alexander, ex-CEO of Comverse Technology, is **arrested in Namibia** after an international manhunt. He is wanted by the U.S. authorities to face multiple charges including conspiracy, securities fraud, and money laundering. **September 30.** It is revealed that, whilst preparing to flee fraud charges in the U.S., Kobi Alexander **transferred \$57 million** from his Citigroup account to bank accounts in Israel: Bank Leumi account 603401/78 and Bank Hapoalim account 131883. He was caught when it was found that tens of millions of dollars had gone into his Namibian accounts. **October 7. October 11.** Kobi Alexander is **charged with offering millions of dollars** as a bribe to David Kreinberg, former Chief Financial Officer at Comverse, in an

attempt to induce him to take sole responsibility for the fraud scheme. Alexander first offered \$2 million, then \$5 million, and finally “name your price”, pleading that there was no reason why both of them “should go down”.

2007: January 2. As part of a lawsuit involving the American Civil Liberties Union, **the FBI releases** its July/August 2004 documents detailing the mistreatment and torture of prisoners at Guantanamo Bay. **February.** Video footage is published demonstrating that **the BBC reported WTC 7 had collapsed, some 20 minutes before it actually did so** at 5:20 EDT. The BBC’s Jane Standley, on location in New York, said that the building had collapsed **when it was clearly visible** through the window behind her head. **Times are confirmed by a timestamp,** and the footage is subsequently **confirmed as genuine by the BBC’s Director of Collections at its Internet Archive. February 7.**

Melbourne scientist Dr Gideon Polya calculates post-invasion excess deaths in occupied Iraq at **one million**. This compares with an October 2006 estimate of **655,000** from a survey overseen by epidemiologists at Johns Hopkins University’s Bloomberg School of Public Health. Both of these figures exclude **up to 1.7 million** pre-invasion deaths, including **half a million children under 5** by 2000, killed as a result of **depleted uranium** and 1990 – 2003 sanctions. **March 6.** I. Lewis “Scooter” Libby is **convicted on four felony counts** including **obstruction of justice, giving false statements to the FBI, and perjury** in relation to the Bush administration’s leaking of the name of a CIA agent to the press. The agent, **Valerie Plame**, is married to **Joseph Wilson**, a diplomat who served in Iraq and Africa. Wilson **correctly reported** in March 2002 that an Italian intelligence report that Iraq was trying to buy yellowcake **uranium** was based on **bogus** documents, yet George Bush **repeated the yellowcake claim** in **January 2003** when **making the case for**

war. The leaking of Plame's name was in retaliation for Wilson's honesty, and part of an attempt to deter any further critics – part of **the vast body of proof that the administration's invasion of Iraq was not simply a mistake based on "faulty intelligence". March 10.**

The U.S. military conducts a **tribunal at Guantanamo Bay** ostensibly to determine if one of their prisoners, alleged to be Khalid Sheikh Mohammed, is an "enemy combatant". KSM was reportedly **killed in a Pakistan Rangers paramilitary raid on his apartment** in September 2002 and his identity confirmed by his wife and children. However, the "KSM" prisoner makes a statement at the tribunal admitting to being responsible for the "9/11 Operation, from A to Z", the "1993 World Trade Center Operation", the "Shoe Bomber Operation", the "bombing of a nightclub in Bali", "planning, training, surveying and financing the New (or Second) Wave attacks" against skyscrapers including the "Plaza Bank, Washington state" and the "Sears Tower, Chicago", being in charge of the "Cell for the Production of Biological Weapons, such as anthrax and others", and responsible for many other plots and operations. Whoever fabricated this 'confession' overlooked the fact that "KSM" was supposedly captured **on March 1, 2003** but **the Plaza Bank** wasn't founded until early 2006. And it **isn't a skyscraper**. If they meant the Columbia Center, that isn't referred to as "Plaza"; **Bank of America Fifth Avenue Plaza** is only the 9th tallest building in Seattle, and **1001 Fourth Avenue Plaza** was down to 5th tallest by 1990. And the anthrax strain was traced to the US military, and it was Israeli "movers" who were caught with a video camera and detailed video footage of the Sears Tower. It was reported back **in November 2005** that KSM's interrogators said he'd held out for more than two minutes against the waterboarding, and use of waterboarding was subsequently **confirmed by Dick Cheney. November 8.** Bernard Kerik – who

announced Sunday September 16, 2001, that a hijacker's passport had been "discovered" – is **indicted on 16 counts including lying, conspiracy, fraud, and taking and failing to report a \$250,000 loan** that originated with **Israeli billionaire industrialist Eitan Wertheimer**, with Brooklyn marble and stone merchant Shimon Cohen serving as intermediary in the transaction. Kerik and Wertheimer spent time together during Kerik's trip to Israel at the end of August 2001. The Wertheimer family's vast holdings include companies with United States Defense Department contracts.

2008: April. The Pentagon's accounting process is said to be "so obsolete and error prone that **it's virtually impossible to tell where much of this money ends up**". **July 29.** FBI "suspect" for the 2001 anthrax attacks, **Bruce E. Ivins, is found dead.** Officially, it is alleged that he committed suicide after learning that the FBI was going to charge him and prosecutors would be seeking the death penalty. Ivins became the new scapegoat, after the FBI gave up attempting to pin the blame on Steven Hatfill because **there was not a scintilla of evidence against him.** However, Ivins had no reason to target **media and opposition politicians** in order to deter them from questioning the official 9/11 story. Embarrassingly for the FBI, they were forced to play the role of "idiots" who were **"baffled" as to Ivins' motive.** **August 19.** **Barry Jennings**, an eyewitness whose **explicit testimony of early explosions in WTC7 prior to collapse of either Tower** contradicts the official version of events, mysteriously dies. **August 21.** NIST **publishes the findings** of its three-year 'study' into the collapse of WTC7. Not surprisingly, the conclusion that "fires" and **"thermal expansion"** of some fireproofed steel beams caused the total collapse of this 47-story building is based on political considerations rather than the **empirical evidence** – evidence that was studiously **ignored** when it did

not support the desired conclusion. Also ignored was the **testimony** of **eyewitness Barry Jennings**, who died two days previously. NIST, whose top scientists and engineers have **extensive knowledge of nano-thermites**, say they have found “no evidence” of explosives at the WTC, but later **admit that they did not bother to look for any.**

December. The bill for Bush’s “war on terror” is estimated to be approaching **\$1 trillion**, excluding long-term **health care for veterans** and interest on **federal borrowing.**

Excerpted from **Take Our World Back**
